

## Out-of-the-box label printing for **MyDÜPERTHAL**

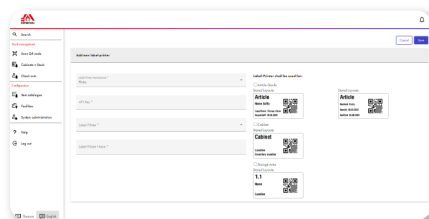

### Jump-start your label printing!

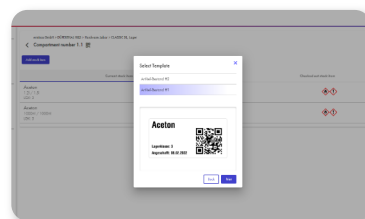

Print your first labels in only a few minutes. No configuration or coding of templates required.

1. Connect printer to Internet (LAN cable)

2. Activate the FLUICS PRINT add-on in the App MyDÜPERTHAL

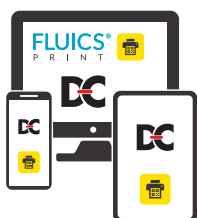

3. Print labels from any PC, Mac, or mobile device

### What's in the box:

#### High resolution printer with a small footprint

Pixel perfect QR code printing (300 dpi) with a compact 9.7x6.9x5.3" (245x175x136 mm) footprint. No additional computer required in the lab.

#### Activation key

Connect your MyDÜPERTHAL account through the cloud to the printer. Print labels from any PC, Mac or mobile device.

#### Access to ready-made label templates

Tested print settings for optimal scan- and readability (incl. QR code and item information).

#### Best-in-class labels

1,000 labels 2.0x1.0" (50.8x25.4mm), solvent resistant, from -20°C to +98°C, removable, blank, white (Type 4). Including black print ribbon and cloud print service.

#### Premium support

Online troubleshooting and 2 years warranty on hardware.

### One-time investment. No subscription. Only 1,449 EUR.

Additional labels starting at 0.19 EUR/label
