# FLUICS CONNECT

## Plug & play inventory tracking for innovative research

Tailored to the needs of life sciences labs.

Combining an intuitive app with a cloud inventory database and an online label printer.

A flexible yet simple solution for life sciences labs that want to **boost efficiency, make experiments more reproducibile and improve the environmental footprint**.

### Benefits for the lab

- ☑ Manage inventory at any time from anywhere

- ☑ Promptly find samples and reagents

- ☑ Avoid losing samples and reagents

- ☑ Prevent double orders

- ☑ Save energy through efficient use of lab storage space
